Sister Crescentia Gruber

On July 11th Sister M. Crescentia, formerly Teresa Gruber of St. Francis, Chicago, died of diabetes at the Motherhouse at Joliet in the thirty-first year of her age and the ninth of her religious life. She was a full sister of Sister M. Ursula.

Sister Crescentia was a good religious, faithful in the observance of the Rule and Constitutions and a zealous and devoted teacher. Though not exceptionally talented, she nevertheless, labored with much success, a result no doubt of fervent prayer. Always forgetful of self, she was ever ready to do favors for others. Patient endurance being one of her characteristic traits, this quality especially manifested itself during her last severe illness in an edifying manner.
